

# PANKRÁC CONFERENCE CENTRE

## TYPES OF ARRANGEMENT IN INDIVIDUAL HALLS

						
	sq m	theatre	classroom	banquet	Geneva	reception
Red Hall	82	84	41	56	36	70
Yellow Hall	100	96	51	72	45	90
Blue Hall	288	304	172	176	125	280

## DESCRIPTION OF THE CONFERENCE CENTRE

The Pankrác Conference Centre size (1 000m<sup>2</sup>), quality and standard are ideal for organizing of congresses, conferences, social events, seminars, trainings, company presentations, fashion shows, company parties, celebrations or banquets. Thanks to both data connection and Wi-Fi connection to high-speed internet also the extensive videoconferences can be organized.

The Pankrác Conference Centre is divided into three halls (Blue, Red and Yellow) and offers the presentable spaces for 15 to 500 persons.

### Blue Hall

The biggest of the halls – the Blue Hall – has a capacity of up to 304 spectators at a theatrical arrangement. The standard outfit comprises two projection screens and powerful ceiling-mounted projectors. It is provided with an active wireless sound system. With view to optimum conditions for listening to both natural and reproduced sound we recommend this hall not only for bigger conferences, banquets, company presentations, but also for fashion shows. The agreeable atmosphere may be intensified by exploitation of the adjacent foyer, e.g. for a small refreshment break.

### Red Hall

The hall is suitable for presentations and company trainings, with a capacity of up to 84 persons at a theatrical arrangement. The space may be divided by a mobile partition to a half-capacity (suitable even for 15 persons). There is a possibility to exploit the adjacent foyer for the refreshment needs.

### Yellow Hall

The presentable Yellow Hall may be used by up to 100 participants, with an option to reduce the capacity to a half. The hall is suitable not only for medium-sized conferences, but also for festive social events. The same as with the Blue and Red Halls, here is a possibility of a high-speed internet connection as a matter of course.

## STANDARD OUTFIT OF THE PANKRÁC CONFERENCE CENTRE

Besides the standard outfit we will provide any technical and communication devices at the client's wish (projection screens, all types of projectors, wired and wireless microphones, supporting devices, Wi-Fi high-speed internet connection).

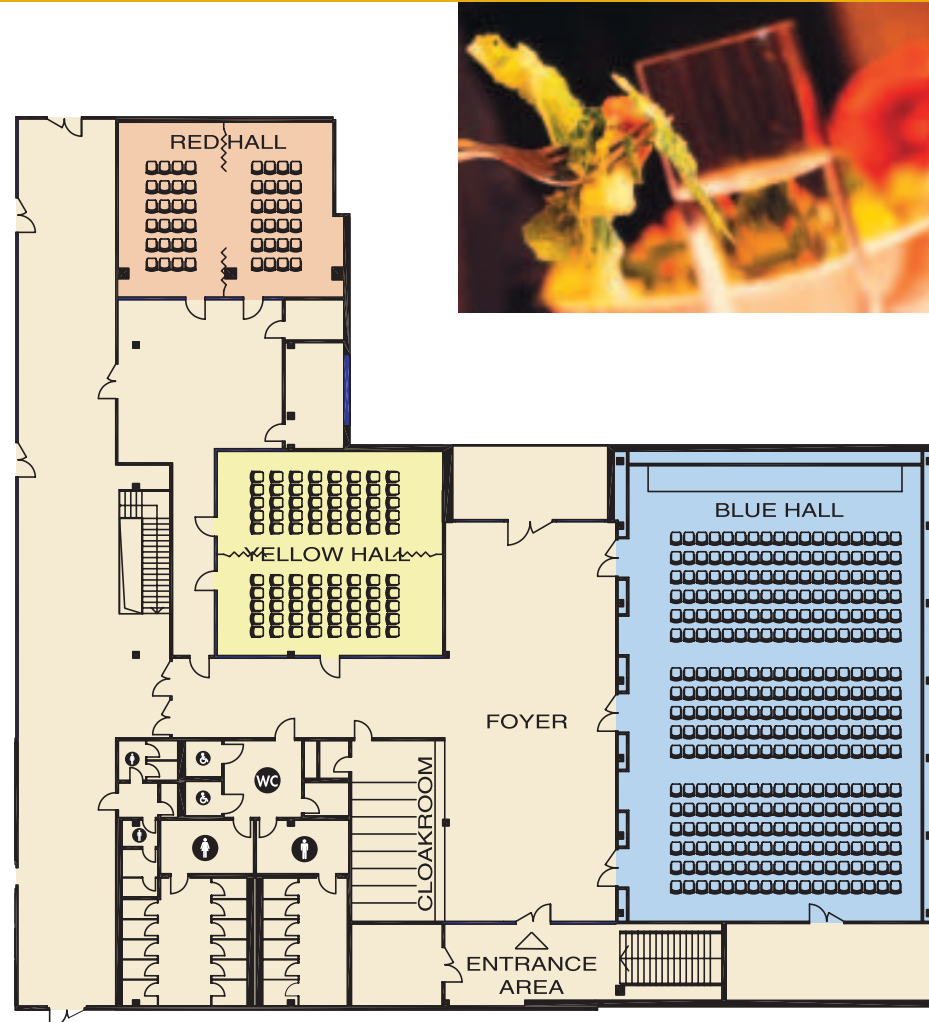

# CONFERENCE CENTRE TECHNICAL PARAMETRES

# OPENING CEREMONY IN FEBRUARY 2006 WE HAVE ALREADY STARTED ACCEPTING RESERVATIONS

## LOCALITY

- Direct access to metro (Pankrác station of C line)
- City bus stations
- Tram stop within pedestrian distance
- Direct connection to north-south road artery
- Parking provided
- Barrier-free access

Thanks to its location in the city transport network the Pankrác district is an ideal traffic node. It has a direct and trouble-free link to road system, metro and also the good bus and tram connections.
